

FUND A FEMINIST

Make a donation and support young change-makers!

// About the project

From **3 to 6 September 2015**, we will organise the **AGORA**, the first ever **European young feminist summer school**, in Brussels! The AGORA will foster diversity and will bring together a range of young feminist activists aged between 18 and 30 from across Europe who are passionate about their ideals and have experience in activism, change making and politics related to women's rights.

// Why?

We have witnessed a new generation of young feminists rising up, innovating and rebooting **the fight for equality!** A lot of new organisations, initiatives, and campaigns have been flourishing and a 4th wave of feminism is on its way. We see many opportunities to strengthen the connection between these activists across Europe and with our organisation.

// We aim to:

- Set up a creative space for young feminist change-agents, to exchange, to inspire and reinforce their skills.
- Build solidarity and empower young feminist activists.
- Work across borders to amplify feminism in Europe and the feminist network.
- Develop activities: workshops, skills-sharing, expertise, interventions from inspiring speakers.

// To make this happen, fund a feminist!

To ensure that 50 women (self-defined) can take part in this unique opportunity and that no one will be excluded, we ask for your generosity. Your donation helps us to cover the costs that arise from organising a summer school and making it into a success.

// Who are we?

The European Women's Lobby (EWL) is the largest umbrella organisation of women's associations in the European Union who are fighting for women's rights & gender equality. We represent more than 2000 organisations at national, regional and local level. Our activities are coordinated in the EWL headquarters in Brussels to amplify the voices of our members around Europe.

// For a feminist Europe

In 2015 we are celebrating 25 years of grassroots, national, and European campaigning and advocacy to achieve equality between women and men in all areas of public and private life. We won't stop until **economic and social justice and independence** for women is achieved across Europe and the globe. We will continue campaigning until **equal representation** of women and men in decision-making becomes a reality. Across the globe we call out for **women's human rights and the eradication of male violence against women**. To succeed in these aims, we must listen to and work with the **younger generation of feminists** and tackle persisting **stereotypes and sexism** in society together.
